CMT REALTORS LIMITED | NEW WEBSITE

What we need from you

A short checklist of the information and photographs we need to finish the website.

Thank you for the staff list and the client list. Both are now on the website: your six registered valuers on the Our People page, and all your clients on the Our Clients page.

To finish the website, we need a few more things that only CMT can give us: some facts, some photographs and a couple of decisions.

We never make anything up on the site. Where something is still missing, the site simply leaves it out for now. As each item arrives, we add it straight away.

Property listings are not in this checklist. The CMT team will add and update them directly through the website's editing system.

How to use this checklist

1. Each item has its own number, for example 3.2. Please mention the number when you send something, so we know what it is for.

2. Send things in any order, whenever they are ready. There is no need to wait until everything is complete.

3. If you are not sure of an answer, a best guess marked "to confirm" is very welcome. We will not publish it until you tell us it is right.

> **What the website says about CMT:** CMT is a valuation firm first and an estate agency second. For more than sixteen years, banks, public bodies and companies have trusted CMT when they need a property value they can rely on. Every figure comes from real market evidence, and every report is signed by a named, qualified valuer. If you feel any of this is not quite right, please let us know.

If you only have a little time, please start here

These five items make the biggest difference to the website.

1	**Registration numbers for the six registered valuers**	Section 2
2	**Are the Uganda and Kenya offices one firm, or two linked firms?**	Section 1
3	**A mobile number for WhatsApp**	Section 4
4	**Photographs of the team**	Section 6
5	**A few named references from clients**	Section 5

1. About the firm

A few basic facts that the rest of the website is built on.

No.	What we need	Notes or example	Done
1.1	**In which year did the Uganda practice start?**	The About page tells the firm's history in stages. With the year, we can show it as a proper timeline.	☐
1.2	**Are the Uganda and Kenya offices one firm, or two linked firms?**	At the moment the site describes Kenya (Nairobi, Mombasa, Kisumu, Kisii and Bungoma) as a "linked practice". If it is one firm, we will describe it that way everywhere.	☐
1.3	**Which three types of valuation bring CMT the most work?**	The homepage currently highlights valuations for lending, financial reporting and compensation. Please tell us if a different three would be better.	☐

2. Credentials

Thank you for confirming that six of your valuers are registered with the Surveyors Registration Board. The website now says so. What it still needs is the registration numbers, so a bank or a court can check them.

No.	What we need	Notes or example	Done
2.1	**Registration numbers for the six registered valuers**	Godfrey Omondi, Michael Oballim, Rachel Nanyunja, Stella Namujumbi, Joan Nakalanda and Ronald Kidega. Until we have them, the site says "Registered" with no number.	☐
2.2	**Godfrey Omondi: please confirm MRICS and his Kenya licence**	Public records show him as a Member of the Royal Institution of Chartered Surveyors (MRICS) and licensed by the Institution of Surveyors of Kenya. Please also tell us how he would like his qualifications written.	☐
2.3	**Michael Oballim: please confirm he is FISU**	FISU means Fellow of the Institution of Surveyors of Uganda. We found this in public records, not from CMT.	☐
2.4	**Is CMT a member of the Uganda Institution of Surveyors?**	The website used to say CMT is regulated by it. It now names the Surveyors Registration Board instead. If CMT is also a member of the Institution, we will mention both.	☐
2.5	**Does CMT have its own registration as a firm?**	If so, please send the details. This is separate from the valuers' own registrations.	☐
2.6	**Optional: what level of professional indemnity insurance does CMT hold?**	Banks often ask about this before adding a valuer to their panel.	☐

3. People

The Our People page now shows your two Technical Directors and four registered valuers. Their photographs are covered in Section 6.

No.	What we need	Notes or example	Done
3.1	**How is Stella's surname spelled: Namujumbi or Namujjumbi?**	Your staff list writes "Namujumbi", but her email address and earlier CMT material use "Namujjumbi".	☐
3.2	**A line about each valuer's experience (optional)**	For example, the kinds of property they value most, or their years in practice. At the moment the site says only that they are registered valuers.	☐
3.3	**Are Kanshabe Lindah and Waniala Andrew still with CMT?**	They were listed as property agents on the old website but are not on your staff list, so we have taken them off the site for now. We can add them back in minutes.	☐
3.4	**Who works in the Kenya practice?**	Your staff list covers the Uganda team only. If the Kenya team should appear, please send their names and titles.	☐

4. Contact details

No.	What we need	Notes or example	Done
4.1	**Which mobile number should people use for WhatsApp?**	The office landline cannot receive WhatsApp messages. The WhatsApp buttons on the site are ready and will start working as soon as we have a number.	☐
4.2	**Please confirm your office opening hours**	The site currently shows Monday to Friday, 8:30 am to 5:30 pm, and Saturday, 9:00 am to 1:00 pm.	☐

No.	What we need	Notes or example	Done
4.3	**Please check the office location on the map**	The pin is on Ambassador House, Kampala Road. If it is not quite right, a Google Maps link is all we need.	☐
4.4	**Please send links to CMT's social media pages**	The site has buttons for Facebook, X, Instagram, LinkedIn, YouTube and TikTok. Tell us which ones CMT does not use and we will remove them.	☐

5. Proof from clients

Thank you for the full client list. All of them now appear on the Our Clients page, grouped by sector.

No.	What we need	Notes or example	Done
5.1	**Short references (testimonials) from clients, with their permission to publish**	For each one: the quote, the person's name, job title and organisation. If possible, also the type of job and the year, for example "Mortgage valuation, 2025".	☐
5.2	**What do "PLC", "HCH" and "EFC – MDI" stand for?**	They are on your client list, but we could not tell which organisations they are, so we have left them off the site until we know.	☐
5.3	**Please check the client names as we have written them**	We used each organisation's own spelling, for example "Ecobank" for "Eco Bank", "TotalEnergies" for "Total Energies", and "National Water and Sewerage Corporation". You can see the full list on the Our Clients page.	☐
5.4	**Could you share one sample report, with private details blacked out?**	Even a single page helps a new client see what they will receive. No other firm in the market shows one.	☐

6. Photographs

Real photographs will make the biggest difference to how the website looks and feels. Most of the photos on the site today are stock images. A good phone camera is perfectly fine, as long as the photo is sharp and taken in good light.

No.	Photo	What it should show	How many	Done
6.1	**Headshots of the six registered valuers**	Head and shoulders, a plain light background, looking at the camera. The same style for everyone, so the team page looks like one team.	6	☐
6.2	**The team together**	A group photo in the office, or outside Ambassador House.	1 or 2	☐
6.3	**Inside the office**	The reception and working areas, tidy and well lit.	3 to 5	☐
6.4	**Valuers at work**	During an inspection: measuring, checking documents, taking notes on site. Faces do not need to show.	5 to 10	☐
6.5	**Buildings CMT has valued**	Known Kampala buildings CMT has worked on, only where the owner agrees. One could be used at the top of the homepage.	3 to 6	☐
6.6	**The other offices**	Gulu, Mbale and Mbarara, and the Kenya offices if they should appear on the site.	1 per office	☐

Tips for good photos: Take photos in daylight, without flash. Hold the phone level, and turn it sideways for buildings and rooms. Tidy the space first. Please send the original files by email or a shared folder rather than through WhatsApp, which makes photos smaller and less sharp. Only photograph a client's building if they have agreed.

7. Logo files

No.	What we need	Notes or example	Done
7.1	**The CMT logo as an original design file, ideally SVG**	The gold logo on a transparent background, and a white version. The logo we have now has a green box built into it, which limits how we can use it.	☐

8. Before the website goes live

No.	What we need	Notes or example	Done
8.1	**Approval of a privacy policy**	Uganda's Data Protection and Privacy Act 2019 requires one, because the website's forms collect names and phone numbers. We are happy to draft it for you to review.	☐
8.2	**Optional: two or three short articles for the blog**	For example, "What a bank needs from a valuation". The blog stays hidden until the first article is ready.	☐

Thank you. Every item you send makes the website more accurate, more convincing, and closer to launch.
